COMPUTER NETWORKS

CHAPTER 4 - EXERCISES

EVANGELOS C. ZIOULAS (IT TEACHER)

EXERCISE 1

- Chapter 4 – Activity 9 (School Book p. 129)

Your friend is living to the same building with you to an apartment upstairs from yours.

Describe the equipment that is needed in order to have your computers connected so to be able to interchange data.

EXERCISE 2

- Chapter 4 – Activity 10 (School Book p. 129)

What kind of potentials does your school network provide you?

If you didn't have any computer network in your school labs, describe what additional equipment you would need in order to have the same advantages.

EXERCISE 3

- After searching Internet resources, answer the following questions:
- What Internet Service Providers (ISP) you know?
- Create a list of web addresses in which we can gather information about Greek ISP's.
- List 5 brand names of famous networking manufacturers (e.g. modem, router, hubs).
